Sales & Marketing	B2B sales, client acquisition, territory management, market analysis
Communication	Client consulting, requirement gathering, stakeholder management
Business Acumen	Growth strategy, product thinking, startup ecosystem understanding

KEY PROJECTS

UniMart — *MERN Stack*

- ▶ Campus marketplace platform enabling students to buy, sell, and trade items within their university. Features user authentication, product listings, search & filtering, and a clean responsive UI.

LifeSync — *MERN Stack*

- ▶ A personal productivity and life-management application helping users track goals, habits, and daily tasks with an intuitive dashboard interface.

Innings Lab — *Web Technologies*

- ▶ A cricket-focused analytics and stats platform, showcasing in-depth data visualization and sports data management.

Yantra Dashboard — *MERN Stack*

- ▶ A full-featured trading simulator that replicates real-time market mechanics — designed to help users practice investment strategies in a risk-free environment.

Alta — *MERN Stack*

- ▶ Personal portfolio with advanced animations built using GSAP, AnimeJS, MERN Stack.

AgriElevate — *React, Express, Node JS, SQL [In Development]*

- ▶ Smart crop planning with market insights, built for farmers to produce High ROI crops efficiently.

WORK EXPERIENCE

Growth Manager

Zomato | Amritsar, Punjab

- ▶ Drove merchant acquisition and onboarding in the assigned territory, exceeding monthly targets through structured outreach.
- ▶ Built and maintained relationships with restaurant partners, addressing operational challenges and ensuring platform adoption.
- ▶ Developed a strong understanding of B2B sales, business development pipelines, and client communication.
- ▶ Analyzed local market trends to identify growth opportunities and optimize territory performance.

Jun 24 – Jul 24

Freelance Web Developer & Graphic Designer

Alta Web Studio (Independent) | Punjab, India

- ▶ Delivered full-stack web solutions and branding packages for small businesses and startups across Punjab.
- ▶ Designed logos, social media assets, and marketing collateral — combining technical development with visual design.
- ▶ Managed end-to-end client projects: requirement gathering, design, development, and deployment.
- ▶ Maintained ongoing client relationships, providing support and iterative improvements post-launch.
